

CompBenefits Offers the TLC Vision® LASIK Advantage

LASIK is the most popular elective surgery in the U.S. Now CompBenefits and TLCVision, the leaders in their industries, make the life-changing LASIK procedure available to you at an affordable cost through the **TruVision Advantage Program**.

The TruVision Advantage Program

Because every eye is different, there are different LASIK procedures available. Our doctors help Members select the procedure offering the best possible outcome based upon their vision prescription, healing profile and expectations.

TruVision Advantage Program Members pay a preferred rate for LASIK*:

- Silver Package: \$895/eye for Conventional LASIK
- Gold Package: \$1295/eye for CustomLASIK.
PRK is available on this package only. TLC Lifetime Commitment can be purchased, \$200 (per eye).
- Platinum Package: \$1895/eye for CustomLASIK plus Bladeless LASIK (using the IntraLase technology). Includes the TLC Lifetime Commitment.

The TruVision Advantage Program Services Include:

- FREE Consultation to determine candidacy
- Comprehensive pre-operative testing with some of the most advanced technology in the industry
- LASIK with an experienced surgeon at any TruVision Advantage Network location
- Post-operative visits for up to three months following your procedure
- **Affordable convenient payment plans.** Our financial application process is quick and easy. Usually, approvals take only a few minutes.

** Most common rate is listed. Offer varies at some locations. Lifetime Commitment available only at participating TLC Laser Eye Centers.*

The Right Procedure for You

The FREE Consultation will help determine which procedure is best for your vision.

To Learn More About LASIK

Members should schedule a FREE Consultation to determine if they are a candidate. During the visit, Members may ask any questions they have about the benefits and risks of LASIK. Members must identify themselves as part of the **TruVision Advantage Program** in order to qualify for the preferred rate, and they will be required to pay this rate on the day of their procedure.

A refundable deposit may also be required at the time services are scheduled.

Conventional LASIK Conventional LASIK corrects basic vision errors such as nearsightedness, farsightedness and astigmatism.

CustomLASIK After deciding to have LASIK many patients opt for CustomLASIK—the enhanced FDA approved vision correction technology.

Corneas are like fingerprints — detailed, unique and no two are alike. This uniqueness creates distortions that Conventional LASIK is not designed to treat. That’s why we offer CustomLASIK.

- Using wavefront technology, an analyzer projects waves of light into eye.
- A customized map is created for each individual eye.
- Digital technology identifies and measures imperfections 25 times more precise than Conventional LASIK to offer higher levels of precision and treatment accuracy.

Bladeless LASIK A silent computer-guided laser is used during the first step of the LASIK procedure to create the corneal flap. Bladeless LASIK eliminates the hand-held microkeratome, giving you a truly ‘all laser’ procedure.

- The laser allows customization of the flap.
- Accounts for the natural curvature of the cornea, creating a flap of uniform thickness.
- In recent studies done by IntraLase, this technology may now make it possible to treat patients with LASIK who were previously dismissed as candidates due to thin corneas.

LASIK is an Eligible Pretax Expense.

Members may further increase their savings by using a pretax account such as a Flexible Spending Account (FSA) or Health Savings Account (HSA). Before allocating funds to a pretax account for LASIK, Members should first find out if they are a good candidate for the procedure. TLC*Vision* provides FREE Consultations to any interested Member.
