Good health starts with a healthy mouth

Make dental visits a priority

One of the first lines of defense in overall health is dental care. Regular dental cleanings can help manage problems throughout the body, such as heart disease, diabetes, and stroke. In fact, a healthy mouth can add 6.4 years to RealAge[®] life expectancy.¹ The HumanaDental Prepaid plan enables you to take better care of your teeth, and you'll pay less for your dental care doing so.

Go to MyDentalIQ.com

Take a health risk assessment that immediately rates your dental health knowledge. You'll receive a personalized action plan with health tips. You can print a copy of your scorecard to discuss with your dentist at your next visit.

Tips to ensure a healthy mouth

- › Use a soft-bristled toothbrush
- › Choose toothpaste with fluoride
- › Brush for at least two minutes twice a day
- › Floss daily
- › Watch for signs of periodontal disease such as red, swollen, or tender gums
- › Visit a dentist regularly for exams and cleanings

HumanaDental Prepaid HS210 Plan

The HumanaDental Prepaid plans focus on maintaining oral health, prevention and cost-containment. Members may see a primary care dentist as often as necessary. There are no yearly maximums, no deductibles to meet and no waiting periods. HS plans copayments for listed procedures are applicable at either a participating general dentist or participating specialist.

A primary care dentist (PCD) may decide that a member needs to see a contracted dental specialist. No referral is necessary to see a network specialist.

Specialists services: Should members need a specialist, (i.e., endodontist, oral surgeon, periodontist, pediatric dentist), they may be referred by a participating general dentist, or members can self-refer to any participating specialist. For HS plans, copayment amounts are applicable when treatment is performed by participating specialists.
